**NOTICE TO THE
PUBLIC**

Availability of

PCB Administrative files.

The Navy has confirmed that elevated levels of Polychlorinated biphenyl (PCB) have been found in the soil at an area adjacent to the former PCB transformer vaults at NAVCAMS EASTPAC, Wahiawa. The administrative files, which include documentation of the environmental studies of this problem, are available to interested agencies, individuals, and groups upon request. These files are located at Building 24, NAVCAMS EASTPAC, Wahiawa. Agencies and the general public are also encouraged to provide written comments which should be mailed to the address below no later than November 5, 1990. Contact:
